PROFESSIONAL SUMMARY

Creative Computer Science student interested in designing user-friendly interfaces. Skilled in Figma, Adobe XD, prototyping, wireframing, and creating clear user flows for web and mobile products.

CORE SKILLS

Figma	Adobe XD	Prototyping
Wireframing	UI/UX Design	User Flows
Design Systems	Responsive Design	Usability Testing
High-Fidelity Mockups	Mobile UI	Accessibility

EDUCATION

B.Sc. in Computer Science | Yarmouk University | Expected Graduation: 2026

PROJECTS

InternEra Student Dashboard Redesign

- Designed dashboard screens in Figma for internship search, saved internships, and applications.
- Created user flows, wireframes, high-fidelity prototypes, and reusable components.

Smart Hospitality Room App UI

- Designed mobile screens for smart door, lighting, AC, and room-service robot control.
- Built interactive Adobe XD prototype with clean navigation and modern cards.

Restaurant Booking App Prototype

- Created full booking experience from onboarding to reservation confirmation.
- Improved usability through clear buttons, labels, and responsive layouts.

EXPERIENCE / TRAINING

UI/UX Design Trainee | Freelance Design Practice

- Conducted competitor analysis and user journey mapping.
- Created Figma components and Adobe XD prototypes for web and mobile.
- Prepared handoff notes for developers including spacing, colors, and component states.

LANGUAGES

Arabic: Native | English: Very Good

TESTING NOTE

Expected result: high match for UI/UX Design Intern because the CV directly includes Figma, Adobe XD, Prototyping, UI/UX, and remote-friendly design wording. Expected low/medium match for Mobile App Intern.
